

Product and Quality Conformance Statement

Pacific Ventilation is a wholly-owned subsidiary of Systemair AB and is a manufacturer and distributor of HVAC fans and related equipment. Pacific Ventilation manufactures products in Melbourne, Australia and sources products from an international network of suppliers. Pacific Ventilation has distribution centres located throughout Australia and New Zealand.

Pacific Ventilation's procurement and manufacturing systems are accredited and independently audited to ISO9001:2015. Products manufactured or supplied meet the requirements of, or are tested according to, the following standards (where required or relevant).

- ISO 5801:2007 (Airflow performance)
- AMCA 210 (Airflow performance)
- ISO 3744:2010 (Sound performance)
- AS 13347.2 (Sound performance)
- AMCA 300 (Sound performance)
- AS 4429:1999 (Smokespill)
- AS 1668.1:2015 (Smokespill)
- AS 1668.2:2012 (Kitchen exhaust)
- AS 3959:2009 (Bushfire zone)
- AS 1554:2014 (Welding)
- AS/NZS 4680:2006 (Galvanising)
- AS/NZS 3000:2007 (Wiring)
- AS/NZS 60335.1 (Electrical safety)
- AS/NZS 60335.2 (Electrical safety)
- AS 1668.2 (Car park jet fan design & modelling)

All products manufactured by Pacific Ventilation are run tested and data logged as part of an ongoing commitment to quality and traceability.
